PROFILE

Detail-oriented System Engineer with expertise in full-stack web development, UI/UX design, and digital design. Skilled in HTML, CSS, JavaScript, React, PHP, Java, MySQL, PostgreSQL, and Figma. Passionate about building responsive, user-friendly applications, solving technical challenges, and delivering high-quality solutions through continuous learning and collaboration.

EXPERIENCE

Attendance Management System

CyberMissions Myanmar

2026

Followed team leader instructions to develop and maintain application features, performed software and unit testing, wrote unit test code, resolved bugs, prepared technical documentation, and collaborated with the development team to deliver project tasks according to project requirements.

Portal Site (MYSCUE)

CyberMissions Myanmar

2026 - Present

Developed UI screens and implemented application functionality based on project requirements, checked technical documentation, performed software testing, collaborated with team members throughout development, and continuously learned the project workflow and development processes while contributing to the project.

EDUCATION

Metro IT and Japanese Language Centre

Vocational College

2023 - 2025

Studied software development and IT engineering, gaining skills in Java, PHP, HTML, CSS, and databases. Developed web applications using PHP and MySQL. Achieved ITPEC FE and IP certifications and passed JLPT N5 and NAT-TEST N3 to strengthen Japanese communication skills for IT environments.

CERTIFICATIONS

- ITPEC Fundamental Information Technology Engineer (FE) Certification
- ITPEC Information Technology Passport (IP) Certification
- NAT-TEST N3 Japanese Language Certification
- JLPT N5 Japanese Language Certification
- Graphic Design Certification
- Intermediate English Certification

PROJECTS

Portfolio – Personal Portfolio Website

Next.js, React, TypeScript, Tailwind CSS

- Developed a personal portfolio website to showcase projects, technical skills, certifications, and developer information.
- Built a modern responsive interface with reusable React components and interactive UI elements.
- Applied frontend development practices to create a user-friendly web experience.

Cafe Midori – Cafe Website

HTML, CSS, PHP

- Created a Japanese-inspired cafe website with a clean and responsive design.
- Developed webpage layouts, styling, and interactive features to improve user experience.
- Applied frontend technologies to build an attractive and accessible website.

QR Code Generator – Web Application

HTML, CSS, JavaScript

- Developed a web application for generating QR codes based on user input.
- Implemented frontend logic and user interaction features.
- Practiced JavaScript functionality and web application development.
